There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Take Hall's Family Pills for constipation.

LUCILE ITEMS.

Destiny is moving along at a rapid pace in the Lucile community. School's progressing nicely. Forty-seven pupils have been enrolled thus far, while the average daily attendance has been about forty. Friday afternoon teacher and pupils armed with a goodly supply of rags and Old Dutch Cleanser made a determined onslaught upon the walls of the school room, which resulted in the appearance of the wall a being greatly improved.

We regret to report the absence of Little Patricia Stacy and Arthur Ringer from school on account of sickness, and also of the Parker and Busby children, who had to begin gathering the fleecy staple.

Wednesday was a school holiday. Quite a number of the pupils attended the fair at Chickasha. School will be held Saturday to make up the lost time.

Jim Wallace was a visitor at school Monday and conducted the devotional exercises. We hope others of the parents will show themselves thus interested.

Mr. and Mrs. Ike Taylor and Mrs. Horn took dinner at Mr. Morrow's Sunday. Mrs. Grant Wilson of Minco, Mrs. Morrow's mother, is also visiting at the Morrow home this week.

There was no Sunday school Sunday on account of the rain. However, Rev. Shaw preached after Sunday school time.

Rev. Coker and Rev. Hitchcock are conducting a revival at this place. Much interest is being manifested and we hope the good work will continue. Thus far there have been two conversions and seven additions to the church.

A literary was organized at school last Friday afternoon. A short program was given and preparation begun for the next meeting, which will be held at the school house Friday night, September 31. A cordial invitation is extended to all to attend and take part in the work and help make it a great success. Officers were elected as follows: Gideon Torpley, president; Myrtle Wallace, vice president; and Ella Brown, secretary.

There is, my dear editor, lots more news worth telling of important events from this neighborhood, but a sense of modesty forbids us taking up more space at the present writing.—Pitchfork.

Women's Coats and Suits in "Last Moment" Modes

Lodged deep in every woman's mind's eye, there lies a vision of some novel style-creation which she has either seen or read of—or perhaps it may be a product of her own imagination.

There are garments of this general type—Coats and Suits so charming in style and dainty in fabric that they seem entirely out of reach. Not so! Here in our store we are showing the new and wonderful modes of authentic style creators, embodying the popular or convertible collar, flare skirt, etc. The fabrics most in vogue are heavy tweeds, plush and velvet with smart fur trimmings. Broadcloth and Wool Poplin are among the suit materials.

THE PROPER ATTITUDE.

Good work should not be expected of a child whose eyes are not perfect. Our SCIENTIFIC examination will disclose whether he needs a pair of accurately fitted FITS-U-GLASSES.

School years begin soon and proper attention to the eyes of children should be of prime importance to both parents and teachers. It requires long practice and scientific training to be able to give proper advice concerning the eye—whether glasses are needed permanently or only temporarily to relieve some weakness of one or other of the delicate muscles employed in the function of vision. Better temporary glasses whenever possible for often when once used the need of permanent glasses becomes absolutely imperative, when temporary glasses and scientific training of the weak muscles would be more beneficial and desirable.

IMPROPER ATTITUDE

If his eyesight is a serious handicap to his success in studies. We are registered by examination under the law and therefore reliable.

This new system of muscle training is known as "Oculo-didactic," or cultivation of the eye, and is bound to appeal universally to intelligent parents and teachers rather than to see little ones subject to a system that will leave them bespectacled for life. We are fully equipped for thoroughly demonstrating the conditions of the eyes, and will test and freely advise all school children accompanied by one of their parents and a note from their teacher.
